Identity Screening & Document Forensic Report

Screening Subject:	Non Doc Test	Date/Time:	2026-08-30 11:08:11 UTC
Screening Reference:	DS-8A45F9ED	Operational Domain:	AIRPORT SECURITY
Overall Assessment:	UNABLE_TO_DETERMINE	Explainable Score:	100 / 100

1. Extracted Information & OCR

Field Name	Extracted Value	Confidence
No text fields isolated	-	-

2. Machine Readable Zone (MRZ) & Checksum Verification

Element	Validation Status	Checksum Output
MRZ Detected	NO	No MRZ lines
Document Number Checksum	FAIL/N/A	Doc: None
Date of Birth Checksum	FAIL/N/A	DOB: None
Expiry Date Checksum	FAIL/N/A	EXP: None
Composite Checksum	FAIL/N/A	Mathematical modulo-10 validation

3. Tampering Analysis & Face Verification

Module	Signal Assessment	Metrics
Error Level Analysis (ELA) & FFT	Potential Anomaly	Score: 0.79 Confidence: 93%
Biometric Face Verification	UNABLE_TO_VERIFY	Similarity: 0%

4. Recommended Operational Action

Decision Support: Low anomaly signal — Standard verification procedures sufficient.

MANDATORY SCREENING NOTICE: The screening subject name is an operator-provided reference and is not independently verified. This report contains AI-assisted screening signals and does not independently establish document authenticity or identity. Final verification must be performed by authorized personnel using applicable official procedures and authoritative databases.
